

# Design Contest Prequalification

The Municipality of Aarhus, the ARoS and Realdania hereby invite architects, artists and/or groups of same to participate in a design contest after prequalification in connection with the realisation of a large-scale project on top of the ARoS Aarhus Art Museum in Aarhus, Denmark.

The ARoS Aarhus Art Museum, which was designed by the Danish architects schmidt hammer lassen, was inaugurated in April 2004, and has since then fulfilled its aim of creating and developing an international museum of art in Aarhus.

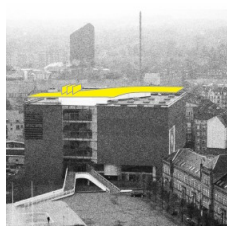

In an interaction between architecture and art, a new experience-filled Sky Space is now to be established on top of ARoS.

The Sky Space is intended as a challenging contribution to our understanding of the integration of art and architecture.

The intention of the Design Contest is to obtain proposals for a new urban roof space on top of ARoS's large, square building by making the maximum use of the potential of the roof surface for establishing a recreative Sky Space. The roof area forms approximately 2.600 m<sup>2</sup>.

The objective is to create a visual arts experience and attraction that is formulated architecturally, and the intention is to implement a project which is based on ARoS's existing roof surface, thereby enabling a holistic experience of the architectural and artistic concept of the Museum.

Open and closed facilities should be available all year round, allowing visitors to participate in various events, functions, etc., where food and drink will be served.

The competition period is planned to run from early October 2006 until end of January 2007.

The deadline for the receipt of applications for prequalification is: 26th September 2006 at 13.00 hrs.

Requests to participate must be sent to the address stated below.

The contract notice regarding the design contest can be read in its entirety on [www.kuben.dk/bygherreraadgivning](http://www.kuben.dk/bygherreraadgivning), [www.aros.dk](http://www.aros.dk), and [www.aarhuskommune.dk](http://www.aarhuskommune.dk).
